**Every rule here was
written for a reason.**

Why this workshop

The case for change

80%

of incidents involve
unsafe acts (illustrative)

0

harm is our only target

2 min

to report a near-miss

Illustrative figures for discussion.

Common hazards

01

Slips and trips

Wet floors, cables and clutter.

02

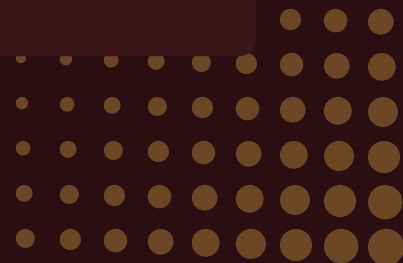

Machinery

Moving parts, guards and lock-out.

03

Electrical

Damaged cords and overloaded sockets.

Try it: Spot the hazards

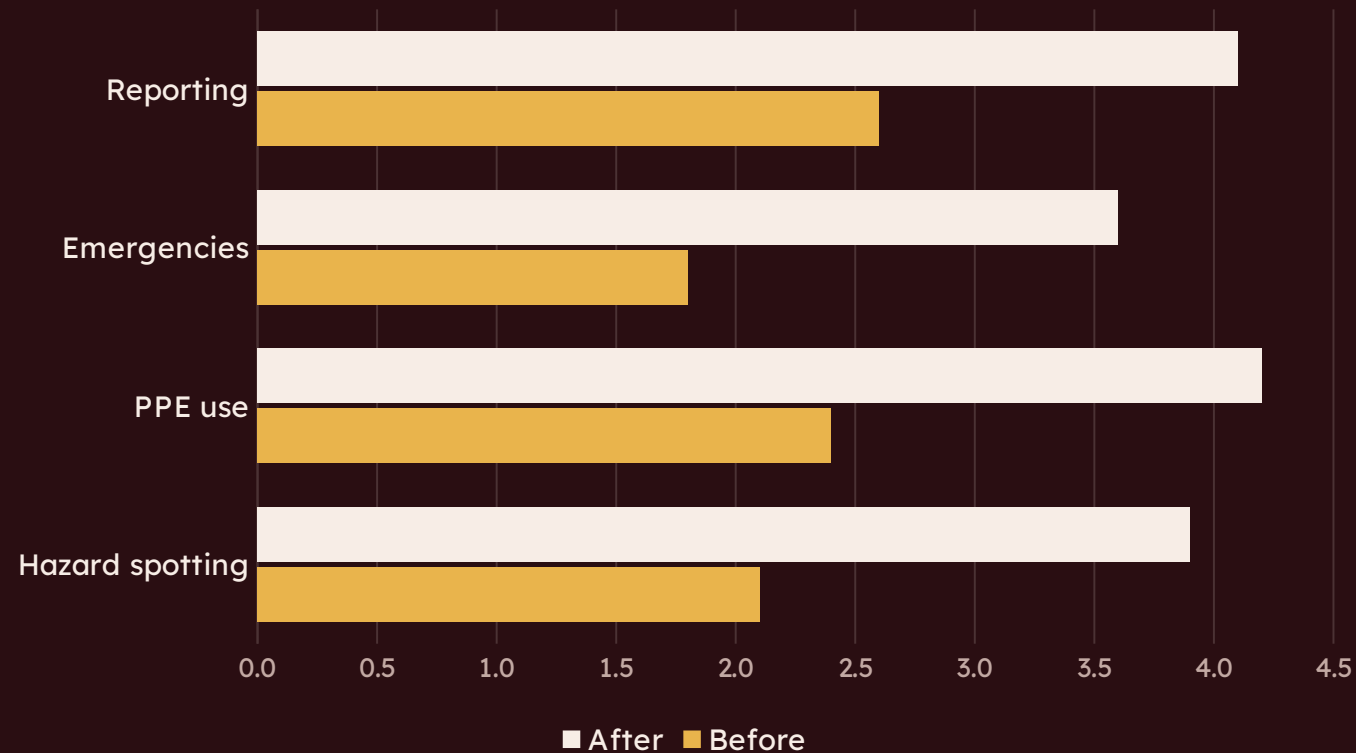

Activity photo / worksheet

Find ten hazards in a workplace scene.

Teams get a printed scene. Circle every hazard, rate it low, medium or high, and suggest one control for each.

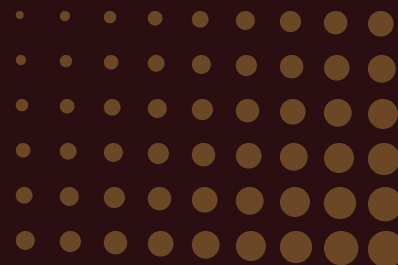

Confidence before and after

Self-rated confidence on a 5-point scale (sample data).

Sample data for illustration — replace with your own figures.

Your 30-day action plan

01

Day 1

Site tour with your supervisor.

02

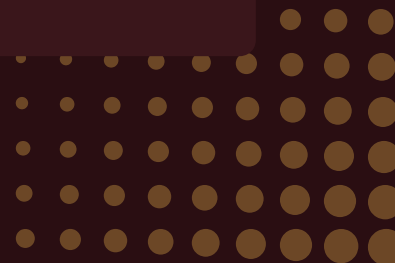

Week 1

Learn exits and assembly point.

03

Month 1

Log your first safety observation.

Key takeaways

- Stop if unsure
- PPE every time
- Know your exits
- Report everything

Now go and practise

Questions, feedback and next steps.
