1. MARKETING IN THE DIGITAL AGE

Customers now discover, compare and buy online. Even a small shop can reach new customers with clear digital basics.

In this chapter you will learn

- How customers find businesses online
- The main digital channels
- Setting marketing goals

The Customer Journey

People move from awareness to consideration to purchase and loyalty. Digital tools can support each stage.

Main Channels

Search, social media, messaging, email and marketplaces each play a different role. You do not need all of them.

Set Clear Goals

Choose one main goal for the next three months – more enquiries, more store visits or more online orders.

Try this

Search for your business name online and note what customers see.

Key Takeaways

- Understand the customer journey.
- Choose channels that fit your business.
- Set one clear goal.

Practice Questions

1. Describe your typical customer.
2. Which two channels suit your business best?
3. What is your main goal for the next three months?

2. YOUR BUSINESS ONLINE: LISTINGS AND WEBSITE

A complete online presence makes it easy for customers to find and trust you.

In this chapter you will learn

- Setting up a business listing on maps
- Basics of a simple website
- Collecting reviews

Map Listings

A complete listing with address, hours, photos and phone number helps local customers find you.

A Simple Website

A one-page site with what you offer, prices or ranges, location and contact options is enough to start.

Reviews

Ask satisfied customers for honest reviews and reply politely to all of them.

Try this

Add five good photos and your opening hours to your business listing today.

Key Takeaways

- Complete your map listing.
- Keep the website simple and clear.
- Ask for and respond to reviews.

Practice Questions

4. List the information your listing must include.
5. Draft the headline for your website.
6. How will you ask customers for reviews?

3. SOCIAL MEDIA THAT WORKS

Social media is about consistency and usefulness, not going viral.

In this chapter you will learn

- Choosing platforms
- Planning content
- Engaging with followers

Pick Your Platforms

Go where your customers are. A café may focus on Instagram; a B2B service may prefer LinkedIn.

Content Pillars

Plan content around three or four themes such as products, behind the scenes, tips and customer stories.

- Products and offers
- Behind the scenes
- Helpful tips
- Customer stories (with permission)

Engagement

Reply to comments and messages quickly. Conversations build trust.

Day	Pillar	Post idea	Format
Mon	Products	New arrival of the week	Photo
Wed	Tips	How to choose the right size	Carousel
Fri	Behind the scenes	Packing orders	Short video
Sun	Customer story	Thank-you post (with permission)	Photo

Table 3: Sample weekly content plan

Try this

Plan a two-week content calendar with one post every two days.

Key Takeaways

Think Like a Customer

Write down the words customers type when looking for your products, including your city or area.

Use Keywords Naturally

Include these words in page titles, headings and descriptions, written for people first.

Local Search

Keep your name, address and phone consistent everywhere and encourage reviews.

Try this

Check that your address and phone number are identical on every listing.

Key Takeaways

- Use customer words.
- Write for people first.
- Be consistent locally.

In this chapter you will learn

- Building a contact list with permission
- Writing messages people read
- Avoiding spam

Permission First

Only message people who have agreed to hear from you, and make it easy to opt out.

Useful Messages

Send occasional, relevant updates: new stock, festival offers, reminders. Keep them short.

Frequency

Too many messages lead to blocks and unsubscribes. Quality beats quantity.

Try this

Write a three-line message announcing a new product.

Key Takeaways

- Always get permission.
- Be useful and brief.
- Do not over-message.

Practice Questions

13. How will you collect contacts?

- Targeting basics
- Measuring results

Start Small

Begin with a small daily budget and one clear goal for each campaign.

Target Carefully

Use location, age and interests that match your real customers.

Measure

Track cost per enquiry or sale, not just likes. Stop ads that do not perform.

Try this

Run one test ad for a week and record the results in a table.

Key Takeaways

- Test with small budgets.
- Target real customers.
- Measure cost per result.

Practice Questions

16. Define the goal of your first ad.
17. Who exactly should see it?
18. What cost per enquiry is acceptable?

7. MEASURING WHAT MATTERS

Simple measurement shows what works so that you can do more of it.

In this chapter you will learn

- Key metrics for small businesses
- Using free analytics tools
- Monthly reviews

Choose a Few Metrics

Enquiries, store visits, online orders and repeat customers matter more than follower counts.

Free Tools

Platform insights and website analytics show where visitors come from.

Monthly Review

Once a month, review results, keep what works and change one thing.

Metric	This month	Last month	Change
Enquiries			
Online orders			
New reviews			
Repeat customers
