Release Notes · v4.2

June 2026

In this issue

- Bulk Invoice Editing Is Here
- Faster Dashboard
- GST Report Improvements
- Tip of the Month
- Customer Story
- Coming Soon

Bulk Invoice Editing Is Here

You asked, we built it. You can now select multiple invoices and update due dates, tags or payment status in one go.

Bulk editing is available on all plans from today. Find it under Invoices → Select.

3

New features

15

Improvements

24×7

Help centre

Faster Dashboard

The dashboard now loads significantly faster for accounts with many transactions.

GST Report Improvements

Monthly GST summaries now include a reconciliation view.

We build for the shop
owner who has five

minutes between
customers.

— Product team

Tip of the Month

Set up recurring invoices for retainer clients to save time every month.

Customer Story

A bakery owner shares how automated reminders reduced late payments.

Coming Soon

Multi-currency invoices and a mobile receipt scanner are in testing.

Upcoming

Date	Event	Where
