01 Purpose

This manual explains how to install, use and maintain your AquaPure AP-500 water purifier safely. Read it fully before first use.

02 Scope

Applies to model AP-500 sold in India. Specifications may change without notice.

03 Safety Instructions

Important Safety Information

1. Install the purifier on a stable wall or surface away from direct sunlight.
2. Use only with potable municipal or borewell water within the specified input range.
3. Do not open the cover while the purifier is connected to power.
4. Use genuine filters only.

Warning

Disconnect the power plug before cleaning or replacing filters.

04 Getting Started

What Is in the Box

5. Purifier unit
6. Wall-mounting kit
7. Inlet pipe and connector
8. Quick-start guide and warranty card

Installation

9. Choose a location near a water inlet and power socket.
10. Mount the unit using the wall kit.
11. Connect the inlet pipe and open the inlet valve.
12. Plug in and switch on; the purifier will flush for 10 minutes.
13. Discard the first two tanks of water.

Tip

Ask a trained technician to install the unit if you are unsure.

05 Using the Purifier

Control Panel

The panel shows tank level, filter life and alerts. Touch the dispense button to fill a glass.

Connecting the App

14. Install the companion app and create an account.
15. Hold the Wi-Fi button for five seconds until the light blinks.
16. Follow the in-app steps to pair the purifier.

06 Care and Maintenance

Cleaning

Wipe the outer body with a soft, damp cloth. Do not use harsh chemicals.

Filter Replacement

Replace filters when the app or indicator shows less than 10% life.

17. Switch off and unplug the unit.
18. Open the side cover.
19. Twist out the old filter and insert the new one.
20. Close the cover and flush for 10 minutes.

07 Troubleshooting

Problem	Possible cause	What to do
No water output	Inlet valve closed	Open the inlet valve
Slow flow	Clogged pre-filter	Clean or replace pre-filter
Unusual taste	New filter not flushed	Flush for 10 minutes
Wi-Fi light off	Not paired	Repeat pairing steps
Leakage	Loose connector	Switch off and call service

08 Frequently Asked Questions

How often should I replace filters?

Typically every 6–12 months depending on water quality and usage.

Can I use the purifier during a power cut?

Stored water in the tank can be dispensed; purification needs power.

Is installation free?

Check your warranty card for installation terms.
