Profile परिचय

Data analyst with 6 years of experience turning messy operational data into clear decisions. I build dashboards people actually open, design experiments that settle arguments, and explain the numbers in plain language to leadership.

छह वर्षों का अनुभव — बिखरे हुए डेटा को साफ़, समझने योग्य निर्णयों में बदलना। डैशबोर्ड, प्रयोग और सरल भाषा में रिपोर्टिंग मेरी ताकत है।

Experience अनुभव

Senior Data Analyst

2022 — Present

Northwind Analytics, Bengaluru

- Built a self-serve metrics layer now used by 40+ analysts across four regions.
- Designed pricing experiments that lifted average order value by 9% in two quarters.
- Cut the weekly reporting cycle from three days to four hours by automating SQL pipelines.

Data Analyst

2019 — 2022

Bluepeak Labs, Pune

- Owned churn analytics for a subscription product with 1.2 lakh users.
- Created a cohort model that flagged at-risk accounts two weeks earlier.
- Partnered with finance to rebuild the monthly revenue forecast.

Business Analyst Intern

2018 — 2019

Kestrel Systems, Pune

- Mapped order-to-cash processes and documented 30+ reporting requirements.
- Built Excel models for vendor scorecards used in quarterly reviews.
